addressing own parapet.
While on duty, patient was
struck by piece of shrapnel which
entered the left leg about 2 in
above internal malleolus and
emerged through external malleolus, fracturing the tibia
and fibula. Patient was admitted to a dressing
station at Camoy and then was transferred from there
to 11. General Hosp. at Paris, and from there to the 2nd Western
General Hospital.

12. (a) Give your opinion as to the causation of the disability.

Shrapnel wound.

(b) If you consider it to have been caused by active service, climate, or ordinary military service, explain the specific conditions to which you attribute it (See notes on page 3).
